

St. Anthony Foundation

San Francisco California, is feeding the hungry.

The St. Anthony Foundation has been serving the San Francisco area for over 50 years in the same location. They just celebrated having served over 40 million meals, free of charge, to hungry individuals in need. The Foundation is building a new St. Anthony's Dining Room to accommodate the growing number of people who need their services. The new Dining Room will be 43% larger than the original and will serve upwards of 3000 meals per day!

We provided the funds to help them purchase large-scale, food kettles for their new dining room.
